 One Year ..... \$12.00 One Week ..... 30  
 Nine Months ..... 9.00 One Month ..... 1.00  
 Six Months ..... 6.00 Three Months ..... 3.00  
 Delivered by Carrier, \$1.25 per Month.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

Parties who do not receive their papers, or who have any cause for complaint will oblige The Bonanza by notifying this office.

The Bonanza is kept on file at Dempsey & Stanley, Turk and Mason Streets, San Francisco.

Entered at the postoffice in Tonopah as second class matter.

## ADVANCE OF SILVER.

WHILE the advance in the price of silver has only begun to affect the quoted value of the leading dividend payers it is certain that the stocks which will repay the greatest profits are those which are yet in the prospect stage. The investment securities have reached a point where their values are fixed by dividend records of the past but in the future it is well to reckon on a phenomenal appreciation of every prospect in the silver belt which has a chance to make a mine. In the Tonopah district this means rapid development of the outside areas which have been trying to interest capital from the days when silver was selling below 50 cents. The allotment for capital was not of the strongest type as the coppers and zinc and lead mines offered more immediate returns but, with silver holding buoyant around 87 cents the market furnishes the greatest stimulant known in a quarter of a century for enlisting big capital. During the period of stagnation shrewd men have been gathering data and accumulating claims outside the active area of development waiting for the day when the price of silver would enable them to bring in fresh capital with the object of opening an entirely new district adjacent to the producing mines of Tonopah. Companies have been steadily operating on the eastern and western extremities of the proven district and these companies will one of these days show the effects of the enhancement of silver by inaugurating development on a large scale. With silver headed toward the dollar mark the risk of loss is almost eliminated and the element of time is about the only one which has to be taken into consideration. For six months strong interests have been diamond drilling and churn drilling along the strike of the so-called Halifax ledge until an abundance of material facts has been gathered to await a decision from the men who have made millions from early investments in other sections of this district that has been so prolific of fortunes for the judicious buyer of mining stocks. On the western horizon the conditions, if anything, are more encouraging. The only drawback to that quarter has been the difficulty of mastering the water problem but that is in a fair way of solution and, as soon as the new auxiliary steam plant of the power company enters into commission the work of exploration will be resumed with greater vigor under the stimulus of a steadily advancing demand for the white metal.

## SEND THEM OFF WITH A SMILE.

THE time is fast approaching when the boys summoned by the draft will be called to leave their homes and kindred for the glory of fighting for the perpetuation of the principles which gave birth to these United States. The event should be made a red letter day in the annals of the state. Tonopah has given more freely of her young manhood than any other community west and the departure of several score youths in the full flush of manhood should not be permitted to pass without a demonstration that will linger in the memories of the fighting force which this camp will contribute to the cause of freedom. The time for regrets and repining has passed. The nation is confronted with a stern necessity which should be signalized by making this the greatest day in the history of the camp. The time for calling all men to the colors has been fixed tentatively on the third of September which furnishes an opportune occasion to prepare a demonstration that will send our boys off with a hurrah and a feeling that the value of their sacrifices is not lost upon those of us who will remain at home. The presidential holiday about to be declared for September third brings Labor Day and draft day together, making the celebration the absorbing theme of the month. It can be done and when the citizens of Tonopah realize the obligations they are under to the men who will march forth to the mobilization camp they will undoubtedly come forward with a programme of patriotic exercises to commemorate the occasion. The time is so short that whatever is going to be done must be done quickly. The thrilling address of General Pershing should form part of the exercises so that all may understand the urgency of the summons that is calling for our best blood and our finest talent that the country may be preserved from the vandal hand of autocracy.

## KIDDIES' SWIMMING POOL.

THE free swimming pool for the kiddies is materializing rapidly now. If you don't believe it take a run down to the vicinity of the Victor and you will be surprised to see what change can be wrought in the course of 48 hours. The project has the support of the best people in camp as testified by the fact that scores are coming in with subscriptions after having passed up the proposition as a summer day whim. All the big hearted men and women of Tonopah need is to know that somebody with practical knowledge is at the head of affairs and they will come through with their money. At no time was there a question as to the expediency of the free swimming pool but a great many persons were skeptical about carrying it through to successful execution. Now that there is no longer any doubt about the consummation the pursestrings are loosened, but every dollar that will be offered will find a place in the plans by leading to a betterment and the adoption of urgent improvements that will cause the grown-ups to envy the kiddies the pleasure they will derive from this inestimable boon. The only suggestion raised is that the work should have been thought of before. Nevertheless it is better late than never. If anybody wants to be enrolled in this happy cause it is not too late to enclose a check payable to the order of the "Boys' Swimming Pool" and send it to the Bonanza office. There are plenty of warm days ahead and the men and women of the camp should put their shoulder to the wheel and boost for the sake of their own kiddies or the kiddies of others who are, perhaps, less able to indulge in the luxury of unlimited bathing.

According to latest reports from the western front the Germans are seeking their holes and pulling them in after them.

Italy has been taking a breathing spell but is hitting back in great shape on the Isonzo front where they left off six weeks ago. At the same time the Russ is gaining courage and morale on the eastern front in Galicia and will keep the Austro-Hungarian troops busy guessing where to look for the next attack.

Instead of 50,000 I. W. W. responding to the call for a general strike in the northwest reports state that the dreaded movement died aborning. At one fell swoop the government stifled the cry of the agitators who will be made to pay dearly for their temerity in trifling with the interests of the country.

The Prussianized Irish are getting their deserts from their countrymen in Massachusetts where the hatred of England is as strong as any place in the United States.

## BASEBALL GAMES

### AMERICAN LEAGUE.

#### Standing of Clubs

	Won	Lost	Pct.
Chicago	72	45	615
Boston	68	44	608
Cleveland	64	56	533
Detroit	60	56	517
New York	54	58	482
Washington	53	60	469
Philadelphia	42	68	382
St. Louis	45	72	385

#### Yesterday's Games

(By Associated Press.)  
 CLEVELAND, Aug. 21.—Cleveland opened the series with Philadelphia by winning 5 to 4. Morton was effective until the ninth when Philadelphia made four hits and three runs, tying the score. Chapman scored the winning run on Wambach's high bouncer to Witt.

(By Associated Press.)  
 CHICAGO, Aug. 21.—Chicago and Boston divided a double header in the crucial series which will have a big bearing in the pennant race. Chicago shut out the visitors, 7 to 0 in the initial game but Boston won the second game 3 to 1 in eight innings, when it was called on account of darkness. Urban Faber allowed the world's champions only four scattered hits and only two men reached second base in the first game. Chicago batted Foster and Bader freely. Cicotte's wildness in the second game and Barry's timely double won for Boston. The locals started a belated rally in the eighth inning. After one run was scored, Jackson and Felsch struck out in the pinch.

(By Associated Press.)  
 ST. LOUIS, Aug. 21.—Timely hitting with the help of two wild throws by Alansmith, enabled St. Louis to take the first of the series from Washington, 4 to 1. Koob gave the visitors but five hits.

(By Associated Press.)  
 DETROIT, Aug. 21.—Detroit beat New York in the first game of the series, 3 to 2. Both Mitchell and Fisher pitched good ball.

## COMPLETION OF THE RELAY RACE AT TWO POINTS ON PACIFIC COAST

The Inyo Register contains the closing chapter in the relay race over the Midland Trail from which the following extracts are taken: Distance Washington to San Francisco usually estimated, 3064 miles. Time of entire motor trip, 7 days, 15 hours, 20 minutes. Time Bishop to Los Angeles, 9 hours, 47 minutes. Time Bishop to San Francisco via Tioga Pass, 15 hours, 1 minute.

A courier from the east reached Salt Lake at 2:30 o'clock Monday morning. A fresh relay started at once on the 250-mile run to Ely. C. A. Ingalls was the Ely courier, leaving that camp at 5:20 that afternoon. He was followed by R. J. Kelley and mechanic Weaves. This arrangement proved to be fortunate, for seventy miles out from Tonopah the rear axle of Mr. Ingalls' car broke and Kelly and Weaves finished the run. They broke all records to Tonopah, making the 182 miles in 6 hours, 44 minutes. They went

on to Goldfield, reaching there in 7 hours, 30 minutes from Ely.

C. G. Patrick left Goldfield with the packets at 12:40 midnight. He drove a Stutz, and was accompanied by a party, including those in a second car. The found their share of grief on entering Deep Springs valley, for they bucked mud for about two hours. But for this untoward happening they would no doubt have hung up a record for the Goldfield-Bishop running. They got here in 6 hours, 37 minutes from the leaving time, and did some rapid going while they had a chance. Their time from the road junction at Big Pine to Bishop is said to have been 23 minutes.

Two cars stood ready in front of the Hotel Istalia. One one headed south, were A. J. Pederson, manager of the Hotel Van Nuys, Los Angeles, and E. S. Cleveland, of that city. Their car was a Stutz. On

the other side as the Goldfielders stopped was Frank Butler at the wheel of M. G. Watterson's Franklin, with G. H. Dusenberry and W. A. Chaffant as fellow travelers. The watches in this car were five minutes faster than Mr. Patrick's, and were at 7:19 as the car started.

The Los Angeles car was the only one that was in sight of the considerable crowd in the street, for long enough to watch, and it was soon hidden in a trail of dust. Long Pine was reached in two hours and sixteen minutes, and Los Angeles in nine hours and 47 minutes. It was reported that the time to Big Pine was 27 minutes. This car appears to have lost some time somewhere this side of Little Lake and to have made up for it south of there. The time makes a new record.

The west-bound couriers had no car troubles whatsoever, except the number of others that were on the way. Passing cars and wagons in inconvenient places made some difference, and the couriers believe that otherwise the time to Tuolumne Meadows would not have been over four hours. As it was, the watches showed 11:36 after the packets had
